

GLOWING PAGES

G Em / C

G Em C D
Lift our eyes from glowing pages,
G Em C
From the scroll that never ends.
G Em C D
Turn our minds from constant content,
G Em Am D G
To the joy that Jesus sends.
Bm C D
When the screen becomes our prison,
G C D
When distractions steal our peace,
G C G D
Lift our gaze, to Christ exalted,
Em C D G
Let the restless voices cease.

In the rush of daily chaos,
Where the schemes and schedules roar.
Be our stopping, and be our stillness
Call us to Your quiet shore.
You are faithful through our failures,
Memes will vanish while you remain.
Christ our hope beyond the moment
King forevermore the same.

God, uniting Jew and Gentile
Pierced to make division extinct
Steer our path through fads and factions
Welcome wide, yet message distinct
Reconcile your broken body
Mute the mischief that breeds mistrust
Quiet revival no longer a whisper
Lord of all not just Lord of us.

Lord we give you the prime position
Far above all earthly claims
Fill our fingers with your spirit
Missionaries in cyberspace
Truth with grace to challenge nonsense
Tables turned to honour your name
Kingdom advancing 'til every pixel
Bows the knee to your rule and reign
